

Alteryx specializes in data analytics and provides a platform for data preparation, blending, and analysis. Founded in 1997 and headquartered in California, Alteryx has grown to become a leading player in the analytics market, serving customers worldwide. More than 8,000 customers globally rely on Alteryx to automate analytics to improve revenue performance, manage costs, and mitigate risks across their organization.

As a Premier Alteryx Partner, Continuus provides our customers with end-to-end support to ensure you can gain full value from the platform from day one. Our team of Alteryx pros is a go-to resource for training end-users, identifying and building out use cases in 1-on-1 working sessions, deploying Alteryx Server, and providing technical support.

Continuus has over a decade of experience enabling clients to drive operational efficiency with advanced data strategy, governance, project management, and innovative data engineering. Our data experts support and enable mission-critical data workflows at the highest levels. Continuus can assist Alteryx clients with:

### *User Training and Enablement*

Together, we tailor Alteryx to work for your business and its use case. Continuus offers virtual training and enablement sessions to new and existing user groups, customized sessions on Alteryx updates and useful features, one-on-one coaching for specific use cases, and continuous partnership to ensure meaningful Alteryx deliverables. We also provide executive briefing and leadership training to ensure the business is aligned for success.

### *Solutions Design*

Continuus helps clients see the art of the possible in their data by providing proven solutions across industries. Our experts design and build solutions that help businesses achieve a higher ROI on their technical investment. From consolidating dozens of data sources to automating KPI calculations and building predictive models, our capabilities help customers gain valuable business insights and automate critical pipelines.

### *Value Added Reseller*

We partner with Alteryx and the customer to ensure success and satisfaction. In addition to empowering our customers and offering solutions, Alteryx can also be purchased directly from Continuus. By offering full support through your Alteryx journey, we make the purchase of Alteryx as seamless as possible and provide continuity over time to solidify the partnership.

### *IT and Infrastructure Expertise*

Continuus' dedicated team can walk you through deployment and governance best practices to encourage trust from your IT team. We work closely with your IT team on the installation, configuration, migration, and upgrades for Alteryx Server in any on-prem or Cloud environment. You will receive guidance from an expert on implementation and training for existing technology teams to complete initial installs and standard maintenance via consultation, while also ensuring end users are set up for success in the platform.
